Bobby Jacobs
Subject: Birchwood Estates, Rod & Gun Club Road

Chairman Robbins,

I've attached a couple documents requested at your November 23rd planning board meeting pertaining to the above-noted project, including:

1. Our plansheet #1, "Boys Daycamp Building Site Plan", dated Rev. 2 - 1/10/2015. This indicates the proposed daycamp building that was not subsequently constructed; along with the septic system to serve that building which was constructed. That system has remained unused since its construction.
2. Copy of January 27, 2015 town board minutes at which time a public hearing was held and closed on the daycamp building, and then approved at that meeting.
3. Copy of my office's septic system inspection report and memo dated April 2, 2015 indicating satisfactory completion of that system by Woodbourne Lawn and Garden Contracting.

I believe the above should answer your board's questions regarding the camp building and septic system. I'll provide the applicants response on your question of any planned future development on their Forestburgh parcel once I receive same.

Thank you.

Glenn
