Per our meeting of March 19th please accept this email as a request to combine the 2 properties I own : 16.-8-2.1 and 16.-8-2.2 into one taxable property.

Property location 16.-8-2.-1 is and has been undeveloped land since at least 1905. It is contiguous to the back line of 16.-8-2.2 located at 282 Merriewold Road (the land my house is on).

The tax map ID lists 16.-8-2.1 as Howell Rd. This road has never been built and is a paper road dating back to approximately 1905. To develop the road today would require a D.E.C. approved span over a stream. In addition costs to excavate and remove glacial rock outcrops, approved road bed construction and tree removal would be extensive.

Another concern is the septic system. Drainage would naturally flow downhill toward a wet marshy area that feeds into the Merriewold lake.

I have no intention of ever developing this parcel. Your consideration of my request would be greatly appreciated.
